The shareholders of our Company are hereby invited to attend the

Annual General Meeting

on 12 April 2018, at 12.00 am

at the PUMA Brand Center, PUMA Way 1, 91074 Herzogenaurach, Germany.

Agenda
================================

1. Presentation of the adopted Annual Financial Statements of PUMA SE and the approved Consolidated Financial Statements for 31 December 2017, the combined Management Report for PUMA SE and the PUMA Group (including the explanatory report of the Administrative Board to disclosures required under the takeover law) and the report of the Administrative Board for the 2017 financial year

The above mentioned documents are available on the Company's website at http://about.puma.com, under INVESTORS/ANNUAL SHAREHOLDERS MEETING, from as of the day of the convening of the Annual General Meeting. They will also be available for inspection by the shareholders during the Annual General Meeting, as well as being electronically accessible via information terminals. Upon request, a copy of the documents will be sent to each shareholder immediately and free of charge.
Pursuant to the statutory provisions, no resolution is planned for this agenda item as the Administrative Board has already approved the Annual and Consolidated Financial Statements; the Annual Financial Statements are thus adopted.

2. **Resolution on the appropriation of retained earnings**

The Administrative Board proposes that the retained earnings of PUMA SE from the past financial year 2017 in the amount of EUR 268,041,587.60 be used as follows:

a) Distribution of a dividend of EUR 12.50 per dividend-bearing share for 14,946,356 shares

b) Carried forward to new account

\[\text{EUR } 186,829,450.00 + \text{EUR } 81,212,137.60 = \text{EUR } 268,041,587.60\]

The proposal for the appropriation of profits takes into account 136,108 company shares directly or indirectly held by the Company at the time of the proposal which are not entitled to dividends pursuant to § 71b of the German Stock Corporation Act (Aktiengesetz - AktG)\(^1\). The amount attributable to company shares will be carried forward to new account.

The number of shares entitled to dividends may decrease or increase until the Annual General Meeting. In this case, the Administrative Board will submit an adjusted proposal for the appropriation of profits to the Annual General Meeting with an unchanged distribution of EUR 12.50 per dividend-bearing share.

Pursuant to § 58(4) sentence 2 AktG, the entitlement to the dividend is due on the third business day following the resolution of the Annual General Meeting. The dividend will therefore presumably be paid on 17 April 2018.

3. **Resolution on the discharge of the members of the Administrative Board for the 2017 financial year**

The Administrative Board proposes to grant the acting members of the Administrative Board in the 2017 financial year discharge for this period.

---

\(^1\) The provisions of the German Stock Corporation Act (AktG) apply to the company as per Articles 9(1)(c)(ii) and 10 of Council Regulation (EC) No 2157/2001 of 8 October 2001 on the Statute for a European company (SE), unless indicated otherwise in the special provisions of the SE Regulation.
4. **Resolution on the discharge of the Managing Directors for the 2017 financial year**

The Administrative Board proposes to grant the acting Managing Directors in the 2017 financial year discharge for this period.

5. **Appointment of the annual auditor and the group auditor for the financial year 2018**

On the recommendation of its Audit Committee, the Administrative Board proposes that

Deloitte GmbH Wirtschaftsprüfungsgesellschaft
Rosenheimer Platz 4
81669 Munich
Germany

shall be appointed as annual auditor and group auditor for the financial year 2018.

Both the recommendation of the Audit Committee to the Administrative Board and the proposal of the Administrative Board are free from undue influence by third parties. Nor were there any regulations which would restrict the choice of selecting a specific annual auditor or a specific audit firm to conduct the statutory audit.

Before submitting the nomination, the Administrative Board has obtained the declaration of Deloitte GmbH Wirtschaftsprüfungsgesellschaft, Munich, for its independence provided for in the German Corporate Governance Code.

6. **Amendments to the Articles of Association with regard to the change from the monistic to the dualistic management system**

The Administrative Board proposes to replace the existing monistic management system of the company with the Administrative Board as a single management and control body with the dualistic management system consisting of the Management Board as the management body and the Supervisory Board as the supervisory body, and to amend the Articles of Association accordingly.

The majority shareholder of the Company, Kering S.A., has announced that it will propose to the Annual General Meeting of Kering S.A. which shall take place on 26 April 2018, to distribute a portion of the shares it holds in PUMA, which represents approximately 70% of the share capital of PUMA SE, by way of a dividend in kind to the Shareholders of Kering S.A.. If the Annual General Meeting of Kering S.A. approves this proposal, the free float of the PUMA shares will rise to around 55% as a result of the transaction. The proposed change in the PUMA SE management system is, in substance, linked to the expected increase
in free float and should therefore only be implemented if the distribution of the PUMA Shares by Kering S.A. actually takes place.

The change of the management system requires an adaptation of the Articles of Association of PUMA SE to the dualistic system. In particular, the previous statutory powers of the Administrative Board are to be allocated to the Management Board and the Supervisory Board as future bodies of PUMA SE in accordance with the statutory division of powers in the dualistic system. The full text of the Articles of Association of PUMA SE in the new version to be adopted is reproduced below. A comparative version showing the changes resulting from the new version in comparison with the currently valid version of PUMA SE is available electronically on company's website at the following address: http://about.puma.com/de/investor-relations/shareholders/annual-general-meeting-2018.

The Administrative Board proposes to adopt the following amendments to the Articles of Association:

a) As of the date of entry of the amendments to the Articles of Association mentioned under b) in the Commercial Register the monistic management system of the company shall be replaced by the dualistic management system.

b) In order to implement the change of the management system, the Articles of Association are amended and reworded as follows:

CHAPTER V.
THE SUPERVISORY BOARD

§ 10
COMPOSITION AND ELECTION OF THE SUPERVISORY BOARD

10.1 The Supervisory Board consists of six members, of which four members are shareholder representatives and two members are employee representatives.

10.2 The shareholders’ representatives are elected by the General Meeting without being bound by election proposals. The employees’ representatives shall be elected by the General Meeting of shareholders on the proposal of the employees in accordance with the agreement on the involvement of the employees in the SE concluded in accordance with the SE Participation Act (Gesetz über die Beteiligung der Arbeitnehmer in einer Europäischen Gesellschaft, SEBG). The General Meeting is bound by the proposals for the appointment of employee representatives. If an agreement concluded in accordance with the SEBG on the involvement of employees in the SE provides for a different appointment procedure for the employee representatives on the Supervisory Board, the employee representatives are not
appointed by the General Meeting but in accordance with the agreed appointment procedure.

§ 11
TERM OF OFFICE

11.1 Members of the Supervisory Board are appointed for the period up to the end of the General Meeting which resolves on the ratification for the fourth financial year after the office term begins, whereby the financial year in which the term of office begins is not counted. In any case, the term of office ends after six years at the latest. Re-appointments are permissible.

11.2 If a member of the Supervisory Board who was elected as shareholder representative at the General Meeting resigns from the Supervisory Board before the end of his or her term of office, a new member shall be elected at the next General Meeting. The term of office of the newly elected member shall be valid for the remainder of the term of office of the departing member. The same shall apply to the term of office of employee representatives who are newly appointed for employees' representatives who resigned prematurely.

11.3 The General Meeting may appoint substitute members for the Supervisory Board members to be elected by it as shareholder representatives, who shall become members of the Supervisory Board in an order to be determined at the time of election, if shareholder representatives cease to be members before the end of their term of office. The same applies to the appointment of substitute members for employees' representatives; the General Meeting is bound by the employees' proposals. Section 10.2 sentence 4 (priority of the agreement on co-determination) shall also apply to this extent.

11.4 The term of office of the substitute member shall be limited for representatives of the shareholders to the time until the end of the General Meeting in which an election pursuant to paragraph 2 takes place, in the case of employee representatives to the time until the beginning of the term of office of the employee representative who was newly appointed for the prematurely dismissed employee representative, but at most for the remainder of the respective term of office of the replaced member.

11.5 Every member of the Supervisory Board and substitute member may also resign from office without good cause by giving notice in writing to the chairperson of the Supervisory Board - or, in the event of resignation from office by the chairperson to his deputy - one month in advance. The chairperson of the Supervisory Board or, in the event of resignation by the chairperson of the Supervisory Board, his deputy may shorten the period of notice or waive compliance with it. The right to resign from office for important reasons shall remain unaffected. The dismissal of a shareholder representative from the Supervisory Board requires a simple majority of the votes cast.
§ 12
CHAIRPERSON OF THE SUPERVISORY BOARD

12.1 Following the Annual General Meeting at which the Supervisory Board members to be elected by the Annual General Meeting were newly elected, a Supervisory Board meeting is held for which no special invitation is required. At this meeting (konstituierende Aufsichtsratssitzung), the Supervisory Board elects a chairperson and a deputy chairperson from among its members for the duration of its term of office. In the election of a chairperson, the oldest representative of the shareholders in terms of age shall preside.

12.2 If the chairperson or his deputy resigns prematurely from office, the Supervisory Board must elect a new member without delay.

12.3 Subject to other provisions in these Articles of Association, the chairperson's deputy has the same rights as the chairperson in all cases where he/she acts on behalf of the chairperson due to him/her being unable to fulfil his/her duties.

§ 13
MEETING AND VOTING

13.1 Supervisory Board meetings shall be convened by the chairperson in writing, by fax or email, under submission of its agenda, with a period of notice of at least fourteen days, stating the venue, the time and the agenda of the meeting. The day of the convocation and the day of the meeting shall not be included in the calculation of the period of notice. In urgent matters, the chairperson may shorten the notice period and/or call the meeting orally or by telephone. The provisions of Section 110 para. 1 and 2 AktG remain unaffected.

13.2 If an item on the agenda was not properly announced, resolutions can only be passed by the Supervisory Board with regard to this agenda item if no Supervisory Board member objects to the resolution. The absent Supervisory Board members are being granted the possibility of objecting to the resolution within a period of two weeks following the receipt of the copy of the minutes pursuant to Section 13.7, if they have not cast their vote in writing. The day of the receipt of the copy of the minutes pursuant to Section 13.7 and the day of the objection shall not be included in the calculation of the period. The resolution comes into effect if none of the absent Supervisory Board members has objected to the resolution within the period.

13.3 The Supervisory Board has a quorum, if more than half of the Supervisory Board members, including the chairperson or, in his absence, the deputy chairperson, personally or by way of submission of a written vote participate in the vote. A vote transmitted by fax or email by one Supervisory Board member to another Supervisory Board member for submission in the Supervisory Board meeting is deemed a
written vote. A Supervisory Board member who indicates his abstention from voting (Enthaltung) shall be considered to have participated in the vote for purposes of determining a quorum. If a quorum is not reached in a Supervisory Board meeting, a new meeting with the same agenda shall be called within one week after the initially scheduled meeting and shall take place within three weeks after the initially scheduled meeting. The day of the initially scheduled Supervisory Board meeting and the day of the new invitation shall not be included in the calculation of the one-week-period as well as the day of the new meeting not in the calculation of the three-week-period. The reconvened meeting shall be quorate if at least three members of the Supervisory Board participate in the vote at the reconvened meeting.

13.4 The chairperson or, in his absence, the deputy chairperson chairs the Supervisory Board meeting.

13.5 Supervisory Board resolutions shall generally be adopted in meetings. Supervisory Board members may, by the order of the chairperson, participate in Supervisory Board meetings by video or telephone conference or electronic media that enable all Supervisory Board members to hear each other; Supervisory Board members participating through any of these media shall be deemed present. A Supervisory Board member who does not participate in a Supervisory Board meeting may participate in the adoption of resolutions by submitting his written vote on the agenda items through another Supervisory Board member. A vote transmitted by fax or email by one Supervisory Board member to another Supervisory Board member for submission in the Supervisory Board meeting is deemed a written vote. Outside meetings of the Supervisory Board resolutions may be adopted in writing, by fax, by email, by telephone, by using other forms of electronic communication or by a combination of the foregoing, if so ordered by the chairperson. The chairperson shall confirm in writing all resolutions adopted outside of meetings and send copies of the confirmation of the resolutions to all Supervisory Board members.

13.6 Unless mandatory law or these Articles of Association provide otherwise, Supervisory Board resolutions are adopted by a majority of the votes cast. The votes cast shall not include abstentions from voting (Enthaltungen). If there is a tie in the voting, the chairperson’s vote, if he or she is a shareholder representative, shall be decisive (casting vote). A deputy chairperson who is an employee representative is not entitled to a casting vote.

13.7 Minutes of the Supervisory Board meetings and resolutions shall be prepared in English. The minute keeper shall be named by the chairperson or, in his absence, by the deputy chairperson. The chairperson or, in his absence, the deputy chairperson shall sign the minutes and send copies to all Supervisory Board members.

13.8 Declarations to be made or received by the Supervisory Board in order to implement resolutions of the Supervisory Board and other documents, announcements and measures of the Supervisory Board
shall be executed by the chairperson or, if the chairperson is de jure or de facto prevented, the deputy chairperson.

§ 14  
COMMITTEES, RULES OF PROCEDURE

14.1 To the extent statutorily permissible, the Supervisory Board is entitled to transfer tasks and duties incumbent upon it to committees appointed from its midst.

14.2 The tasks and duties as well as the internal procedures of the committees shall be determined by the Supervisory Board, e.g. by adopting rules of procedures for the committees. To the extent legally permissible, the authority of the Supervisory Board to adopt resolutions shall be delegated to the committees.

14.3 If the chairperson of the Supervisory Board belongs to a committee and if there is a tie in the committee voting, the chairperson’s vote – but not the deputy chairperson’s vote – shall be the casting vote.

14.4 Section 13.8 shall apply mutatis mutandis.

14.5 The Supervisory Board shall adopt its own rules of procedure.

§ 15  
REMUNERATION

15.1 Each Supervisory Board member shall be entitled to a fixed annual remuneration in the amount of EUR 25,000.00, which shall be payable upon the end of the Annual General Meeting for the financial year in question.

15.2 The fixed remuneration according to Section 15.1 shall be increased by an additional fixed annual amount of (i) EUR 25,000.00 for the chairperson of the Supervisory Board, (ii) EUR 12,500.00 for the deputy chairperson of the Supervisory Board, (iii) EUR 10,000.00 for each chairperson of a committee of the Supervisory Board and (iv) EUR 5,000.00 for each member of a committee of the Supervisory Board. 15.5 A Supervisory Board member shall be reimbursed for any reasonable out-of-pocket expenses incurred in connection with his duties as a Supervisory Board member (including any taxes levied thereon).

15.6 The Company may take out a D&O insurance for the benefit of the Supervisory Board members.

§ 16

16.1 The Management Board shall execute the following measures and actions only with the prior approval of the Supervisory Board:

commitment, per annum or in a series of related commitments.

It is intended to hold the elections to the Supervisory Board in accordance with the German Corporate Governance Code by way of individual election.

8. Resolution on the authorisation of the managing directors (or, as applicable, the Administrative Board) to refrain from disclosing the individual remuneration of the managing directors (or, where applicable, the members of the Administrative Board)

Pursuant to statutory law, the disclosure of the individual remuneration of the executive Directors may be omitted pursuant to § 286 para. 5, § 285 para. 9 (a) sentences 5 to 8, § 314 para. 3 sentence 1 and § 314 para. 1 no a sentence 5 to 8 HGB for a period of five years, if the Annual General Meeting so decides. The exemption of the resolution of the Annual General Meeting of the company dated 7 May 2013 to refrain from disclosing the individual remuneration ends after 5 years with the conclusion of the financial year 2017.

The Administrative Board believes that the shareholders' legitimate interest in information is adequately reflected by stating the total remuneration of the Managing Directors (or, following an effective change of the management system, the future members of the Management Board). The Administrative Board – or, in case of a change of the management system, the Supervisory Board – will ensure the appropriateness of individual remuneration in accordance with its legal obligations.

The Administrative Board proposes the following resolution:

a) For the financial year beginning on 1 January 2018 and for all subsequent financial years ending on 31 December 2022 at the latest, the statements
pursuant to § 285 no. 9 letter a sentence 5 to 8 and § 314 para. 1 no. 6 letter a sentence 5 to 9 HGB are omitted. If the law applicable to the respective financial year provided for a shorter maximum period of validity of the relevant provisions, the resolution shall apply until the latest possible date.

b) The exemption from disclosure to be determined under a) shall continue to apply even after the entry of the amendments to the Articles of Association to be adopted under agenda item 6 b) in the Commercial Register.

9. **Authorisation to issue options and/or convertible bonds, profit-participation rights or profit bonds or a combination of these instruments and for exclusion of the subscription right to these options and/or convertible bonds, profit-participation rights or profit bonds or a combination of these instruments; creation of conditional capital 2018 and amendment of the Articles of Association**

In order to expand the possibilities of PUMA SE to finance its activities and to provide the Administrative Board, in the best interest of the Company, with the possibility to have access to a flexible and on short notice implementable financing option, especially in the case of favourable capital market conditions, the Administrative Board should be authorized to issue bonds and/or bonds with warrants and profit-participation rights and/or profit bonds which should be covered by a corresponding conditional capital to be created by way of amendment of the Articles of Association.

The change of the management system proposed under agenda item 6, if adopted by the Annual General Meeting, also requires an adaptation both of the authorisation and the proposed conditional capital the dualistic system. In particular, the competences proposed for the Administrative Board will have to be split between the future Management Board and the future Supervisory Board in accordance with the statutory allocation of competences within the dualistic management system.

For this reason, as of the entry of the amendment to the Articles of Association to be adopted under agenda item 6 b) in the Commercial Register, the proposed authorisation of the Supervisory Board under the agenda item 9 a) shall apply, with the provision that as of this date the Management Board is responsible with the approval of the Supervisory Board. The full text of the authorisation in the version adapted to the dualistic management system, including a comparative version showing the changes in the competences of the corporate bodies as compared to the version proposed under (a) below, is available on the Company’s website at the following address: http://about.puma.com/de/investor-relations/shareholders/annual-general-meeting-2018.
Likewise, as of the registration of the amendment to the Articles of Association to be adopted under agenda item 6 b), the creation of conditional capital 2018 as proposed under agenda item 9 b) shall apply with the proviso that the Management Board is responsible with the approval of the Supervisory Board. For the sake of clarification, the Supervisory Board shall be authorised to adjust the wording of the conditional capital in the Articles of Association accordingly. The full text of the contingent capital 2018 in the version adapted to the dual system, including a comparative version showing the changes in the competences of the corporate bodies as compared to the version proposed under (b) below, is available on the Company’s website at the following address: http://about.puma.com/de/investor-relations/shareholders/annual-general-meeting-2018.

The Administrative Board proposes the following resolution:

a) Authorisation of the Administrative Board to issue convertible and/or warrant bonds as well as profit-participation rights and or participating bonds (or combination of these instruments)

aa) Basic authorisation, authorisation period, nominal amount, number of shares, currency, consideration

The Administrative Board is authorised until 11 April 2023 to issue bearer and / or registered convertible bonds and / or bonds with warrants, and participation rights and/or participating bonds (or combinations thereof) (collectively “Bonds”) with or without maturity restrictions in the total nominal amount of up to EUR 1,000,000,000.00 and to grant holders of convertible Bonds and option rights (including with convertible or option rights) to up to EUR 3,016,492 new no par value bearer shares of the Company with a proportionate amount of the share capital of up to EUR 7,722,219.52 in accordance with the terms and conditions of the convertible or warrant Bond conditions ("Conditions"). The Bonds may be issued once or several times, in whole or in part, and at the same time in different tranches. The Bonds may each be divided into equal and equivalent partial debentures. All partial debentures of a given tranche must be issued with equal rights and obligations.

Bonds may be issued in exchange for contribution in cash, or also in kind, particularly in exchange for holdings in undertakings or contribution of receivables or other assets.

In addition to euros, Bonds may also be issued in foreign legal tender, such as those of OECD nations, within the limits of the corresponding euro value of the admissible total nominal amount.

Bonds may also be issued by any group companies that exist under the leadership of the Company (“group companies”). In such cases, the Administrative Board shall be authorised to guarantee repayment of the Bonds for the issuing group company and to grant shares in the Company to holders and/or creditors of these Bonds in performance of conversion/option rights and obligations.
and to issue any statements and perform any actions necessary for successful issue.

bb) Warrant Bonds and convertible Bonds

In cases of the issue of warrant Bonds, every partial debenture shall come with one or more subscription warrants that entitle or obligate the holder/creditor to subscribe new no-par bearer shares in the Company according to the Conditions or that contain a tender right for the issuer or that contain a tender right for the issuer. The term of the option shall not exceed the term of the warrant Bond. Moreover, a provision may specify that fractional amounts shall be consolidated and/or settled in cash. The same shall apply if subscription warrants are attached to a profit participation right or a participating Bond.

In cases of the issue of convertible Bonds, the holders/creditors shall receive the right or obligation to convert their partial debentures into new no-par bearer shares in the Company according to the Conditions.

cc) Conversion and subscription ratios

The conversion ratio shall be calculated by dividing the par value or (if applicable) a smaller actual issue amount of a partial debenture by the defined conversion price for a no-par bearer share in the Company and may be rounded up or down to the nearest whole number; where applicable, an additional cash payment may also be stipulated. Moreover, a provision may specify that fractional amounts shall be consolidated and/or settled in cash.

The Conditions may also state that the conversion and/or subscription ratio is variable and that it may be rounded up or down to the nearest whole number; where applicable, an additional cash payment may also be stipulated. Moreover, a provision may specify that fractional amounts shall be consolidated and/or settled in cash.

Under no circumstances shall the prorated amount of share capital of the shares issued for each Bond, on conversion and/or on exercise of an option, exceed the par value and issue amount of the convertible or warrant Bonds. This shall apply without prejudice to §§9 para. 1 and 199 AktG.

dd) Conversion and option obligations

The Conditions may also provide for a conversion and/or option obligation and a tender right for the issuer for delivery of shares in the Company by the end of the term or at an earlier time (in any desired combination). This shall apply without prejudice to §§ 9 para. 1 and 199 AktG.
ee) Authorised capital, cash settlement, treasury shares, right of substitution

The Conditions may provide for or permit the use of shares from authorised capital or treasury shares in the Company, at the discretion of the Company, for performance of conversion and/or option rights and obligations outside of conditional capital (in particular, the Conditional Capital 2018 to be created in connection with this authorisation).

The Conditions may also provide for or permit the Company to refrain from granting shares in the Company – or from granting only these shares – to holders of conversion and/or option rights, and instead in accordance with the conditions to pay, in whole or in part, the cash equivalent corresponding to the volume-weighted average exchange price of shares of the same class in the Company on the Xetra trading system (or in a functionally comparable successor system to the Xetra system) on the Frankfurt Stock Exchange during a timeframe specified in the Conditions.

The Conditions may also provide for a right of the issuer to grant the Bond holders/creditors new shares or treasury shares in the Company in lieu of payment of a cash amount due, in whole or in part. These shares shall in accordance with the Conditions be calculated at a value corresponding to the volume-weighted average exchange price for shares of the same class in the Company on the Xetra trading system (or in a functionally comparable successor system to the Xetra system) on the Frankfurt Stock Exchange during a timeframe specified in the Conditions rounded off to the nearest whole cent.

The Conditions may also provide for a combination of these forms of performance.

The Conditions may also entitle the Company to grant the holder or creditor new shares or treasury shares in the Company or apply other forms of performance on final maturity of a Bond with attached option/conversion rights or obligations (also including maturity due to cancellation), in whole or in part, in lieu of payment of the cash amount due.

ff) Conversion/option price

Even in cases of a variable conversion ratio, and taking into account rounding and additional payments, the conversion/option price set for a share in the Company shall be either:

(1) at least 80% of the volume-weighted average exchange prices of shares of the same class in the Company on the Xetra trading system (or in a functionally comparable successor system to the Xetra system) on the Frankfurt Stock Exchange on the last ten trading days before the day on
which the Administrative Board adopts the resolution for the issue of the Bonds; or

(2) – if a subscription right is granted – at least 80% of the volume-weighted average exchange price of shares of the same class in the Company on the Xetra trading system (or in a functionally comparable successor system to the Xetra system) on the Frankfurt Stock Exchange in the period from the start of the subscription period to (including) the third day before announcement of the final Conditions as per the second sentence of § 186 para. 2 AktG.

In cases of Bonds with a conversion/option obligation or a tender right for the issuer for delivery of shares, the conversion/option price may be either the aforementioned minimum price (80%) or the volume-weighted average exchange price of shares of the same class in the Company on the Xetra trading system (or in a functionally comparable successor system to the Xetra system) on the Frankfurt Stock Exchange (i) in the period during the last ten trading days before or after final maturity or (ii) on at least ten trading days immediately preceding calculation of the conversion/option price according to the Conditions, even if this average price is less than the aforementioned minimum price (80%).

This shall apply without prejudice to §§ 9 para. 1 and 199 AktG.

gg) Dilution protection

The power shall also include the option to grant protection from dilution and/or to make adjustments in certain cases, according to the relevant Conditions. Dilution protection and/or adjustments may be provided for, in particular, if the Company’s share capital is amended during the term of the Bonds (such as a capital increase and/or decrease or a share split), in cases of dividend payments, issues of additional convertible or warrant Bonds and conversion measures, as well as other events affecting the value of the conversion and/or option rights that occur during the term of the Bond (such as a third-party acquisition). Dilution protection and/or adjustments may be provided for, in particular, by granting subscription rights, by changing the conversion/option price or by changing or granting cash components. This shall apply without prejudice to §§ 9 para. 1 and 199 AktG.

hh) Subscription rights and exclusions

In principle, shareholders shall have a subscription right, i.e. the convertible and/or warrant Bonds shall generally be offered for subscription to the shareholders of the Company. The Bonds may also be offered to shareholders by means of an indirect subscription right, in which case they shall be taken on by one or more credit institutions or one or more undertakings in the sense of the first sentence of §185 para. 5 AktG with the obligation to offer them
for subscription to the shareholders. If Bonds are issued by a sub-ordinate group company, the Company shall ensure that share-
holders in the Company are granted their statutory subscription
rights according to the terms of the preceding sentence.

However, the Administrative Board shall be authorised to exclude
shareholder subscription rights on Bonds in the following cases:

(1) to exclude fractional amounts arising due to the subscrip-
tion ratio from the subscription right on Bonds;

(2) in order to grant holders/creditors of previously issued con-
version/option rights or obligations on shares in the Com-
pany subscription rights in the amount to which they are en-
titled based on exercise of these rights or performance of
these obligations, to compensate for dilution; or

(3) for Bonds issued in exchange for contributions in cash, if
after proper examination, the Administrative Board con-
cludes that the issue price of the Bonds is not significantly
less than the theoretical market value calculated using rec-
ognised methods, in particular financial/mathematical meth-
ods. However, this power to exclude subscription rights
shall only apply to Bonds with a conversion or option right
(including conversion obligation) for shares corresponding
to a total prorated amount of no more than 10% of the share
capital existing at the time of entry into force or – if the latter
value is smaller – at the time of exercise of this power (the
'maximum amount'). The prorated amount of the share cap-
ital corresponding to new or previously acquired shares is-
ued or sold during the term of this authorisation under a
simplified subscription right exclusion as per or in accord-
ance with § 186 para. sentence 4 AktG, as well as the pro-
rated amount of the share capital corresponding to the
shares that can or must be subscribed based on option/con-
version rights or obligations issued during the term of this
authorisation with exclusion of subscription rights under
corresponding application of the fourth sentence of § 186
para. 3 AktG, shall be deducted from the maximum amount;
or

(4) if Bonds are issued in exchange for contributions in kind, in
particular within the framework of mergers or (direct or indi-
rect) acquisitions, partial acquisitions, holdings in undertak-
ings, receivables or other assets.

If profit participation rights or participating Bonds are issued with-
out conversion rights, option rights, conversion or option obliga-
tions, the Administrative Board shall also be entitled to exclude all
shareholder subscription rights if these profit participation rights or
participating Bonds are structured like Bonds, i.e. they do not con-
fer any membership rights in the Company or rights to participation
in liquidation proceeds, nor do they calculate the amount of interest based on the amount of the annual net profit, the profit retained or the dividends. In such cases, the interest and the issue amount of the profit participation rights or participating Bonds shall be in line with the current market conditions at the time of issue.

ii) Power to adopt further conditions

The Administrative Board shall be authorised to define the further details on the issue and structure of Bonds, in particular volume, time, interest rate and type of interest (including variable and profit-based interest), issue price, term and denomination, dilution protection provisions, restructuring options, conversion/option period, and conversion/option price (where applicable, also depending on future share exchange prices within a range to be specified at that time) and/or to determine these in mutual consultation with the bodies of the subordinate group company issuing the Bonds.

b) Creation of a Conditional Capital 2018

The share capital shall be conditionally increased by up to EUR 7,722,219.52 by issue of up to 3,016,492 new no-par bearer shares (“Conditional Capital 2018”).

The conditional capital increase serves to grant shares to holders/creditors of convertible and/or warrant bonds (or combinations of these instruments) issued by the Company or a subordinate group company under the leadership of the Company according to the power granted at the general meeting of 12 April 2018 under agenda item 9a) (and d) until 11 April 2023 and that grant conversion/option rights to new no-par bearer shares in the Company and/or set a conversion/option obligation or a tender right and to the extent that the issues are in exchange for contributions in cash. The issue of new no-par bearer shares from the Conditional Capital 2018 shall only be permitted at a conversion/option price that meets the provisions of the power granted by the general meeting of 12 April 2018 under agenda item 9a) (and d).

The conditional capital increase shall only be implemented to the extent that option/conversion rights are exercised or the option/conversion obligations are performed or tenders are carried out and to the extent that other forms of performance are not applied. To the extent that new shares were created by exercise of conversion or subscription rights before the beginning of the ordinary general meeting of the Company, these new shares shall participate in profits from the start of the preceding financial year, and otherwise from the start of the financial year in which they were created by exercise of conversion/option rights. The Administrative Board shall be authorised to define the further details of performance of the conditional capital increase.

The Administrative Board shall be authorised to amend the wording of Article 4 of the Articles of Association according to the implementation of
the Conditional Capital 2018 and apply any and all other associated amendments to the Articles of Association that only pertain to the wording. The same shall apply in the absence of exercise of the power to issue warrant or convertible bonds after expiry of the authorisation period and in the absence of allocation of the Conditional Capital 2018 after expiry of the periods for exercise of option/conversion rights or for performance of option/conversion obligations.

c) Amendment of the Articles of Association

A paragraph 3 is hereby added to Article 4 of the Articles of Association, reading:

‘4.3 The share capital is conditionally increased by up to EUR 7,722,219.52 by issue of up to 3,016,492 new no-par bearer shares (“Conditional Capital 2018”). The contingent capital increase serves to grant shares to holders/creditors of convertible and/or warrant bonds (or combinations of these instruments) issued by the Company or a subordinate group company under the leadership of the Company according to the power granted at the general meeting of 12 April 2018 under agenda item 9a) (and d) until 11 April 2023 and that grant conversion/option rights to new no-par bearer shares in the Company and/or set a conversion/option obligation or a tender right and to the extent that the issues are in exchange for contributions in cash. The issue of new no-par bearer shares from the Conditional Capital 2018 shall only be permitted at a conversion/option price that meets the provisions of the power granted by the general meeting of 12 April 2018 under agenda item 9a) (and d). The conditional capital increase shall only be implemented to the extent that option/conversion rights are exercised or the option/conversion obligations are performed or tenders are carried out and to the extent that other forms of performance are not applied. To the extent that new shares were created by exercise of conversion or subscription rights before the beginning of the ordinary general meeting of the Company, these new shares shall participate in profits from the start of the preceding financial year, and otherwise from the start of the financial year in which they were created by exercise of conversion/option rights. The Administrative Board is authorised to define the further details of performance of the conditional capital increase. The Administrative Board is authorised to amend the wording of Article 4 of the Articles of Association according to the implementation of the Conditional Capital 2018 and apply any and all other associated amendments to the Articles of Association that only pertain to the wording. The same shall apply in the absence of exercise of the power to issue warrant or convertible bonds after expiry of the authorisation period and in the absence of allocation of the Conditional Capital 2018 after expiry of the periods for exercise of option/conversion rights or for performance of option/conversion obligations.’

d) Change to the two-tier board system

Under agenda item 9 a) it is proposed to authorise the Administrative Board to issue bearer and/or registered convertible bonds and/or warrant bonds and participation rights and/or participating bonds (or any combination thereof) (together hereinafter ‘Bonds’) with or without a maturity restriction in the total nominal amount of up to EUR 1,000,000,000.00 and to grant the holders of Bonds conversion or warrant rights (also with conversion or warrant obligation) on up to 3,016,492 new bearer shares of the company with a pro rata amount of the share capital of up to EUR 7,722,219.52 (representing approximately 20% of the company's current share capital) according to the terms and conditions of the convertible bonds or warrant bonds ('Conditions').

This authorisation is intended to expand the company's options for financing its activities, as explained in more detail below, and to open the way for the Administrative Board, especially in the event of favourable capital market conditions, to provide flexible and timely financing in the interest of the company. The authorisation is to be issued for a five-year term until 11 April 2023. The contingent capital instrument used to underpin this authorisation, which by law may have a
total volume of up to 50% of the share capital, contributes significantly to securing this flexibility.

Benefits of the financing instrument

Adequate capitalisation is an essential foundation for business development and successful market presence of the company. By issuing Bonds of the type described above, the company may, depending on the current market conditions, use attractive financing options and terms to attract capital to the company at a low rate of interest. The issuance of Bonds enables the acquisition of borrowed capital, which, depending on the nature of the terms of the Bonds, can be classified as equity or an equity-equivalent for both an internal rating of the financing banks as well as for balance sheet purposes. The realised conversion and/or option premiums benefit the company. In addition, the issuance of Bonds, possibly in conjunction with other instruments such as a capital increase, will open up new investor groups. The possibility of providing for an obligation to exercise the conversion/warrant right or a tender right of the issuer, as well as the possibility of servicing these rights or obligations by delivering treasury shares, paying a cash settlement or delivering shares from authorised capital, expands the scope for the design of such financing instruments. For reasons of flexibility, the company should also issue the Bonds through subordinate Group companies, which, depending on the market situation, use the German or international capital markets and issue the Bonds in a foreign legal currency, such as one of an OECD state, in addition to euros.

Conversion/warrant price

The conversion or warrant price for a share must not fall below 80% of that volume-weighted average exchange prices of the shares of the company of the same class on the Xetra trading system (or in a functionally comparable successor system to the Xetra system) on the Frankfurt Stock Exchange on the last ten trading days before the day on which the Administrative Board adopts the resolution for the issuance of the Bonds. If the shareholders have a subscription right to the Bond, the option is alternatively offered to determine the conversion or warrant price of a share on the basis of the volume-weighted average of the share prices shares of the same class of the company in XETRA trading (or in a functionally equivalent successor system replacing the XETRA system) on the Frankfurt Stock Exchange during the period from the beginning of the subscription period to the third day prior to the announcement of the final terms pursuant to § 186 para. 2 (2) AktG (inclusive), whereby this must also be at least 80% of the determined value. In the case of Bonds with a conversion/warrant obligation or a tender right of the issuer to deliver shares, the conversion/warrant price may alternatively be adjusted to the stock market price of the company’s share in the time-related context of the determination of the conversion/warrant price in accordance with the further specification of the conversion/warrant conditions, even if this is below the minimum price (80%) stated above. This shall apply without prejudice to § 9 para. 1 of German Stock Corporation Act (AktG) and § 199 para. 2 of the German Stock Corporation Act (AktG).
Without prejudice to § 9 para. 1 and § 199 AktG, the conversion/warrant price may be adjusted following a more detailed determination of the underlying terms of the respective Bond due to dilution protection or an adaptation clause if, for example, there were changes in the company’s capital during the term of the Bonds, such as a capital increase or capital reduction or a share split. Furthermore, dilution protection or adjustments may be provided in connection with dividend payments, the issuance of further convertible/warrant bonds, conversion measures and in the case of other events affecting the value of the conversion or warrant rights that occur during the term of the Bonds (such as a third party gaining control). Dilution protection and/or adjustments may be provided, in particular, by granting subscription rights, by changing the conversion/warrant price or by changing or granting cash components.

Authorised capital, treasury shares, cash settlement, variable terms and conditions

The terms and conditions may provide or permit that in the case of the exercise of conversion or warrant rights or the fulfilment of the corresponding obligations, shares may also be granted from authorised capital or treasury shares of the company. In the conditions - in order to further increase the flexibility - it can also be provided or permitted that the company does not or doesn't only grant shares in the company to a party entitled to a conversion or warrant or corresponding obligations in the event of exercising the conversion or warrant right or fulfilling the corresponding obligations, but pays the equivalent in whole or in part in cash. Such virtual Bonds enable the company to provide financing close to the capital market, without the actual need for a corporate capital measure. This takes into account the fact that an increase in the share capital may possibly be unwelcome in the future at the time of the exercise of the conversion or warrant rights or the fulfilment of corresponding obligations. Apart from this, the use of the option of cash payment protects shareholders from the decline in their shareholding and from the dilution of the assets of their shares as no new shares are issued. The cash equivalent value to be paid corresponds to that volume-weighted average exchange price of the shares of the same class in the company on the Xetra trading system (or in a functionally comparable successor system to the Xetra system) on the Frankfurt Stock Exchange during a timeframe specified in the conditions, according to the conditions. Furthermore, it can be provided that the number of shares to be granted upon exercise of the conversion or warrant rights or after fulfilment of the corresponding obligations or a corresponding exchange ratio is variable and can be rounded up or down to an integer number. In addition, for settlement-technical reasons, a payment to be made in cash may be determined and/or provided that combines residual amounts and/or can be compensated in cash.

Subscription rights of shareholders and exclusion of subscription rights

Shareholders should in principle be entitled to subscription rights when issuing convertible and/or warrant bonds. In order to facilitate settlement, the option
should be used to issue the Bonds to one or more banks or one or more companies within the meaning of § 186 para. 5 (1) AktG with the obligation to offer the Bonds to the shareholders in accordance with their subscription rights (indirect subscription right within the meaning of § 186 para. 5 AktG).

However, the Administrative Board should be able to exclude the subscription right in certain circumstances in the interest of the company and the shareholders.

This initially concerns the exclusion of the subscription right for fractional amounts (clause (1)). Fractional amounts may result from the respective issue volume and the presentation of a practicable subscription ratio. The exclusion of the subscription right for fractional amounts makes it possible to use the requested authorisation for round amounts while maintaining a smooth subscription ratio. This facilitates the settlement of shareholders' subscription rights. The exclusion therefore promotes practicability and facilitates the execution of a Bond issuance. The value of fractional amounts per shareholder is usually low, but the expense of issuing Bonds without a subscription right for fractional amounts is significantly higher. The exclusion of the subscription right for fractional amounts seems appropriate in this light.

The exclusion of the subscription right for the purpose of granting holders/creditors of previously issued conversion/warrant rights or conversion/warrant obligations to shares in the company in order to compensate for dilution subscription rights to the extent that they are entitled to after exercising these rights or fulfilling these obligations (clause (2)) is based on considerations of effectiveness and flexibility. For the purpose of facilitating their placement on the capital market, Bonds must be provided with anti-dilution protection, which serves to grant the holders the right to subscribe to new Bonds of future issuances, as shareholders are entitled to. The holders of Bonds are therefore placed as if they were already shareholders. For the Bonds to have such a protection against dilution, the subscription right of the shareholders to these Bonds must be able to be excluded. This facilitates the placement of the Bonds and therefore serves the interests of the shareholders in an optimal financial structure of the company. In addition, the exclusion of the subscription right in favour of the holders of Bonds which grant a warrant or conversion right or justify a warrant or conversion obligation, has the advantage that in the case of a utilisation of the authorisation, the warrant or conversion price for the holders of existing Bonds which grant a warrant or conversion right or justify a warrant or conversion obligation, does not need to be reduced according to the respective terms of the Bond. This allows a higher inflow of funds and is therefore in the interest of the company and its shareholders.

Insofar as Bonds with warrant or conversion rights or warrant or conversion obligations are to be issued, the Administrative Board shall be authorised to exclude the subscription rights of shareholders in accordance with § 221 para. 4 (2) AktG in analogous application of § 186 para. 3 (4) AktG, to the extent that the Bonds are issued for cash consideration and the issue price is not materially
lower than the theoretical market value of the Bonds with warrant or conversion rights or warrant or conversion obligation determined in accordance with accepted, in particular financial mathematical methods (Section (3)). This gives the company the opportunity to take advantage of favourable market situations at short notice and quickly and to achieve better conditions for setting the interest rate and the issue price of the Bonds by setting the conditions close to the market. A determination of the conditions close to the market and a smooth placement of the Bonds would normally not be possible if the subscription right was maintained. Indeed, § 186 para. 2 (2) AktG permits publication of the subscription price (and therefore the conditions of these Bonds) until the third last day of the subscription period. However, given the frequent volatility on the stock markets, a market risk then also persists for several days, which leads to haircuts and hence non-market conditions. Also, in the case of the existence of a subscription right, the successful placement with third parties is endangered or associated with additional expenses because of the uncertainty of its exercise. Finally, if a subscription right is granted, the company cannot react to favourable or unfavourable market conditions in the short term due to the length of the subscription period, but is exposed to declining share prices during the subscription period, which may lead to an unfavourable equity procurement for the company.

Due to the requirement that the issue price may not be materially lower than the theoretical market value of Bonds with warrant or conversion rights or warrant or conversion obligations calculated in accordance with recognised, in particular financial mathematical methods, in analogous application of § 186 para. 3 (4) AktG, the financial interests of shareholders and their need for protection against dilution of the value of their shareholdings are taken into account. If the issue price does not materially fall below the theoretical market value of the Bonds with warrant or conversion rights or warrant or conversion obligations calculated according to recognised methods, in particular financial mathematical methods, the value of a subscription right of the shareholders drops to practically zero. To this extent, the shareholders will not incur any significant economic disadvantage due to the exclusion of subscription rights.

Furthermore, the voting rights of the shareholders are protected from undue dilution of their share ownership by the fact that the authorisation to exclude the subscription right when issuing Bonds against cash payment only applies to the extent to which the shares issued and to be issued to service the warrant or conversion rights or in the event of fulfilment of the warrant or conversion obligations only amount to a total of a proportionate amount of the share capital of no more than 10% of the share capital at the time the resolution of the Annual General Meeting takes effect or, if lower, 10% of the share capital of the company at the time the authorisation is exercised. The pro rata amount of share capital attributable to shares issued or sold during the term of this authorisation in direct, analogous or equivalent application of § 186 para. 3 (4) AktG shall be offset against this maximum amount. In this way, it is ensured that no Bonds are
issued under exclusion of the subscription right of the shareholders, to the extent that this would lead to shareholders' subscription rights to new or treasury shares in an amount of more than 10% of the shares currently outstanding being excluded, taking into account capital increases or certain placements of treasury shares in direct, analogous or corresponding application of § 186 para. 3 (4) AktG.

Finally, the subscription right may also be excluded where bonds are being issued against contribution of assets in kind (Item number (4)). Amongst other things, this enables the company to use the bonds as acquisition currency in suitable cases, in the context of mergers or for the (also indirect) acquisition of companies, parts of companies, participations in companies, receivables or other assets. With this authorization, the Company can respond quickly and flexibly to advantageous opportunities for corporate expansion through the acquisition against the issue of bonds, also in the interest of the Company and its shareholders and all other stakeholders in the national and international market. The administration will carefully examine in each individual case whether it should make use of this authorization if and when acquisition opportunities materialize. It will exclude the subscription right of shareholders only where this is in the carefully weighted interest of the company.

Insofar as profit participation rights or income bonds without option rights, conversion rights, option obligations, conversion or option obligations are issued, the Administrative Board shall be authorized to exclude the subscription rights of the shareholders in their entirety if these profit participation rights or participating bonds are so equipped as to be similar to obligations. This is the case if they do not give rise to any membership rights in the Company, do not grant a share in the liquidation proceeds and the amount of the interest is not calculated on the basis of the amount of the net income, retained earnings or dividend, and the interest and the issue price of the participation rights or participating bonds correspond to the current market conditions for comparable borrowings at the time of issue of same. If the above conditions are met, the exclusion of subscription rights will not adversely affect shareholders, since in any event these profit participation rights or participating bonds do not create a membership right and do not grant a share in the liquidation proceeds or in the profits of the company. Of course it can be stipulated that the granting of interest shall depend on the existence of an annual profit, a profit retained or a dividend. On the other hand, a provision that would increase the interest as a consequence of a higher year-end profit, a higher profit retained or a higher dividend would not be permissible.

As a result of the issue of profit participation rights and / or participating bonds, neither the voting right nor the participation of the shareholders in the company and its profits will be changed or diluted. Since the conditions for the issue of profit participation rights or participation bonds must be in line with market conditions, the right of the shareholders to subscribe to them does not represent any significant economic value either that would be lost by the exclusion of the subscription right.
Concrete plans for the use of the authorization to issue convertible bonds and/or bonds with warrants do not exist at this point in time. Administrative Board shall for every individual case carefully examine whether or not the Board shall exercise the power to issue bonds and to exclude individuals from subscription rights. An exploitation of these possibilities will only take place if, in the opinion of the Administrative Board, this is in the well-weighted interest of the Company and its shareholders and is proportionate.

The Administrative Board will report on each utilization of the authorizations granted in Agenda item 9 b) at the next Annual General Meeting.

**Conditional Capital**

The option or conversion rights or option or conversion obligations associated with the bonds are to be served, as a rule, from the Conditional Capital 2018 that is to be provided for this purpose. The issue amount shall in this case correspond to the conversion or option price. Conversion of option rights as well as conversion and option obligations from bonds which have been issued against non-cash contribution may not be served from the conditional capital. To serve those, it is necessary to use treasury shares or to proceed to an increase of non-cash capital.

**Adaptation to the two-tier management system**

The change of the management system proposed under Agenda item 6, if adopted, also requires an adaptation of the competence of PUMA SE for the authorization and amendment of the statutes to the two-tier system, as proposed under Agenda item 9. In particular, the responsibilities initially proposed under a) to c) for the Administrative Board should be allocated to the Management Board and the Supervisory Board as (future) PUMA SE bodies in accordance with the legal distribution of powers in the two-tier system.

For this reason, from the entry in the commercial register of the statute change to be resolved under Agenda item 6 b) and the change from a single-tier to a dual-tier management system, the authorization of the Administrative Board proposed under Agenda item 9 a) shall apply, with the proviso that from that date the Management Board shall be in charge from this moment in time, with the approval of the Supervisory Board. Likewise, from the registration of the amendment to the Articles of Association under Agenda item 6 b) in the commercial register and the change from a single-tier to a two-tier management system, which becomes effective as a result, the creation of Conditional Capital 2018 as proposed under Agenda items 9 b) and c) shall apply with the proviso that the Management Board shall be in charge, with the approval of the Supervisory Board, from this point in time. In order to implement this change in the version, the Supervisory Board should be authorised to make a clarification.

The proposed resolution under Agenda item 9 d) serves to implement the adaptation to a two-tier system. With the exception of the distribution of competencies, as adapted (Management Board and Supervisory Board instead of Administrative Board), the above made statements for the exclusion of subscription rights shall apply, *mutatis mutandis*, to the two-tier system as well.
10. **Adjustment of the authorisation to acquire and to use treasury shares**

The Annual General Meeting of 6 May 2015 resolved under agenda item 7 to authorise the Administrative Board of PUMA SE until 5 May 2020 to acquire and use treasury shares.

In case of its adoption by the Annual General Meeting, the change of the management system which is proposed under agenda item 6 of this year’s Annual General Meeting also requires an amendment of the authorisation resolved under agenda item 7 of the Annual General Meeting of 6 May 2015 to acquire and use treasury shares towards the dual system. In particular, the previous statutory powers of the Administrative Board are to be allocated to the Management Board and the Supervisory Board as future bodies of PUMA SE in accordance with the statutory division of powers in the dualistic system.

For this reason, as of the entry of the amendment to the Articles of Association to be adopted under agenda item 6 b) in the Commercial Register, the authorisation to acquire and use treasury shares which was resolved under agenda item 7 on the Annual General Meeting of 6 May 2015 shall apply, with the provision that as of this date the Management Board is responsible, if necessary with the approval of the Supervisory Board. The full text of the authorisation in the version adapted to the dualistic management system, including a comparative version showing the changes in the competences of the corporate bodies as compared to the version proposed below, is available electronically on the Company’s website at the following address: http://about.puma.com/de/investor-relations/shareholders/annual-general-meeting-2018.

The Administrative Board therefore proposes to resolve as follows to adjust the authorisation to the dualistic management system:

At the time of entry of the amendment to the Articles of Association as per agenda item 6 b) in the Register of Companies, the authorisation resolved upon in the Annual General Meeting on 6 May 2015 to acquire and use treasury shares shall be amended as follows:

1. Under b), bb) first subparagraph in sentence 2, the phrase ‘decision of the Administrative Board to make an offer’ shall be replaced with ‘decision of the Management Board to make an offer’.

2. Under c) in the first sentence, the phrase ‘the Administrative Board is authorised’ shall be replaced with ‘the Management Board is authorised’.

3. Under c), ee), in the third sentence, first half sentence the phrase ‘the Administrative Board may determine’ shall be replaced with ‘the Management Board may determine’, and in the third sentence, second half sentence the phrase ‘the Administrative is in this case authorised’ shall be replaced with ‘the Management Board is in this case authorised’.

4. Under f), in the second sentence, the phrase ‘the Administrative Board can’ shall be replaced with ‘the Management Board can’.
(5) After f), the following new g) shall be inserted: ‘The Supervisory Board can determine that measures taken by the Management Board based on this resolution of the Annual General Meeting shall only be taken with its consent’.

Such proof of the quality of shareholder must be made in reference to the beginning of the 21st day before the Annual General Meeting, that is, 22 March 2018 (0:00 midnight) (“Proof Key Date”).

Applications and the Proof of Share Ownership must reach the company at the address above mentioned, FAX address or e-mail address no later than at the end of 5 April 2018, (midnight).

An online participation and absentee voting (§§ 19.3 and 19.4 of the Articles of Association of the Company) are not foreseen.

Entry Tickets

Upon registration and receipt of proof of shareholding in the Company, the shareholders will be sent admission tickets for the General Meeting. To ensure the timely receipt of the tickets, we ask the shareholders to ensure early registration and the timely sending of proof of their ownership of shares to the Company. Unlike the registration for the Annual General Meeting, the admission ticket is not required for participation, but merely serves to simplify the procedure at the entrance controls for access to the General Meeting.

Meaning of the Proof Key Date

In relation to the Company, for purposes of participation in the General Meeting and the exercise of voting rights, are only deemed to be shareholders persons who have provided evidence of ownership of shares as of the Proof Key Date. Changes in the
number of shares held after the Proof Key Date are immaterial. The Proof Key Date does not as such contain any mechanism that would block the purchase or sale of shares. Shareholders may therefore continue to freely dispose of their shares following registration. Persons who, as of the Proof Key Date, do not yet own any shares and only then become shareholders, are not entitled to participate or to vote, unless they have been authorized to do so or are authorized to exercise the rights. The Proof Key Date has no significance for a possible dividend entitlement.

**Proxy Voting**

After proper registration and proof having been shown, shareholders may attend the Annual General Meeting in person and exercise their voting rights themselves.

Shareholders who do not wish to attend the Annual General Meeting in person may have their voting rights exercised by proxy. In this case, they must give an orderly power of attorney to the authorized representative. The power of attorney is to be issued in text form (see § 126b BGB), unless shareholders want to empower a credit institution, a shareholders' association or persons or institutions assimilated to such pursuant to Art. 53 SE-VO, § 135(8) and (10) in connection with § 125(5) AktG (see below for this). The same applies to the revocation of the power of attorney and proof of power of attorney. Power of Attorney can be given with the power of attorney form contained in the registration form.

The power of attorney and its revocation can either be declared to the company at the address, fax number or e-mail address

or be declared towards the authorized representative. If the power of attorney is given to the authorized representative, evidence of empowerment to the company in writing is required, unless power is given to a bank or a shareholders' association or any other person or institution equivalent to such pursuant to Art. 53 SE-VO, § 135 Par. 8 and Par. 10 in connection with § 125 Par. 5 AktG. This proof can be provided at the entrance gate on the day of the General Meeting or transmitted to the above address, fax number or e-mail address. The same applies to the revocation of the power of attorney. For the empowerment of credit institutions, shareholders' associations or persons or institutions assimilated to such in accordance with Art. 53 SE-VO, § 135 (8) and (10) in connection with § 125(5) AktG as well as the revocation and the proof of such an empowerment, the legal provisions shall apply, in particular Art. 53 SE-VO, § 135 AktG, which amongst others require the power of attorney to be verifiably retained by the authorized representative.

As a special service, we offer to our shareholders to be represented by employees of PUMA SE, who shall exercise the proxy vote in strict accordance with the express instructions given by the shareholders. The forms for such power of attorney and in-

**Total Number of Shares and Voting Rights**

The statutory capital of the company at the time the General Meeting is called amounts to EUR 38,611,107.84 divided in 15,082,464 no-par value bearer shares with a proportional amount in the statutory capital of EUR 2.56 per share. Every share entitles to one vote (see §19.1 of the Articles of Association of the Company). The total number of voting rights therefore is 15,082,464. At the time of the General Meeting being called, the Company holds 136,108 treasure shares which do not give rise to any special privilege to the benefit of the Company (§ 71b AktG).

Shareholders whose shares together amount to 5% of the share capital (this corresponds to EUR 1,930,555.39 or - rounded up to the next higher total number of shares - 754,124 shares) or the pro rata amount of EUR 500,000.00 (this - rounded up to the next higher number of whole shares - corresponds to 195,313 shares and is therefore the relevant threshold) can demand that items be placed on the agenda and be made public. This Minimum Ownership Threshold is required according to Art. 56 S. 3 SE-VO in connection with § 50 Par. 2 SEAG for requests of extension, made by shareholders of an SE. § 50 Par. 2 SEAG in its content corresponds to § 122 Par. 2 Sentence 1 AktG.

A minimum ownership period of 90 days of the stipulated minimum ownership of shares in the sense of § 122 Par. 2 Sentence 1 in connection with § 1 Sentence 3 AktG, according to § 50 Abs. 2 SEAG, is, in case of an SE, no prerequisite for a request of extension.
The request of extension is to be addressed in writing to the Administrative Board of the Company and must be received by the Company at least 30 days prior to the Annual General Meeting, i.e. at the latest by the end of 12 March 2018 (midnight).
