1. The consolidation scope follows the operational control approach, including PUMA-owned or operated offices, warehouses, stores and own industrial sites (Argentina).

2. Due to the Kering spin-off we reviewed the scope in our sustainability reporting tool. From this year on we will apply the "min. 90% rule" for data collection from PUMA entities, covering min. 90% of PUMA's FTE employees worldwide.

3. Methodological changes over the last three years influence results.
